PROFESSIONAL SUMMARY

Senior Chartered Physiotherapist with over 10 years of experience specialising in orthopaedic and sports-related injuries. Proven track record of reducing patient recovery times by 15% through the implementation of advanced manual therapy and personalised rehabilitation protocols. Recognised for exceptional patient education and collaborative care within multidisciplinary NHS hospital environments.

WORK EXPERIENCE

Senior Physiotherapist | Manchester University NHS Foundation Trust | Manchester, UK

May 2018 - Present

- Lead a team of 8 physical therapists and assistants in a high-volume orthopaedic department.
- Developed a post-operative hip replacement protocol that reduced average inpatient stay by 1.5 days.
- Improved department productivity by 22% through the implementation of a streamlined EPR documentation workflow.
- Conducted weekly training sessions on advanced manual therapy techniques for junior staff members.
- Achieved a 99% compliance rate in clinical documentation during annual CQC healthcare audits.

Sports Physiotherapist | North West Sports Rehabilitation | Liverpool, UK

Jun 2014 - Apr 2018

- Designed personalised recovery programmes for professional and semi-professional athletes, resulting in a 10% faster return-to-play rate.
- Managed the rehabilitation of over 200 ACL reconstructions with a 0% re-injury rate within the first 12 months.
- Integrated video gait analysis technology to identify biomechanical inefficiencies in long-distance runners.
- Collaborated closely with orthopaedic surgeons and athletic trainers to optimise multi-stage recovery plans.
- Secured a £15,000 grant for the purchase of advanced therapeutic laser equipment.

Staff Physiotherapist | Royal Liverpool University Hospital | Liverpool, UK

Aug 2011 - May 2014

- Provided acute care physiotherapy for a 30-bed surgical ward with a focus on early mobilisation.
- Redesigned patient educational materials which increased home exercise programme adherence by 30%.
- Served as a Clinical Educator for 5 undergraduate students from the University of Salford.
- Facilitated a cross-departmental task force that lowered patient fall incidents by 18%.
- Streamlined the equipment ordering process, saving the department £4,000 in annual supply costs.
